

### Zwitserleven Index Aandelenfonds Noord-Amerika

#### Fund Profile

Zwitserleven Index Aandelenfonds Noord-Amerika investes direct en indirect, via Cardano ESG Transition Enhanced Index Equity North America, in a sustainable manner in shares of listed North American companies. The fund is managed on a systematic basis. The objective is to approach the return of the MSCI North America Index Net EUR as much as possible, taking into account the exclusion criteria. Investments are only made in shares which are not excluded on the basis of the General Exclusion Criteria as formulated by Cardano. This results in a deviation (tracking error) with respect to the index. The cash that becomes available due to the exclusion of companies is invested such that the tracking error is minimised. Securities lending is not permitted and currency risk will not be hedged.
